LIFE IMPRISONMENT.

Curt Jett and Tom White Convicted of Murder.

The Application For a New Trial Was Made—The Prosecution May Not Oppose the Motion as to Jett's Case.

Cynthiana, Ky., Aug. 15.—Curt Jett and Tom White, the Jackson feudists, were both found guilty of the Marcus assassination by the jury Friday and sentenced to life terms in the penitentiary.

White flushed as the jurors handed the verdict to the judge and tears came into his eyes and the blood seemed to leave his face as he heard the fateful words. Jett, with clenched jaws, listened to the sentence and still tried to keep up his air of braggadocio.

The defense filed grounds and motion for a new trial at 11 o'clock Friday morning and Judge Osborne set 8:30 o'clock Saturday morning for the hearing of the motion. The motion and grounds consist entirely of objections to the evidence introduced by the court, and the attempted introduction of evidence by the defense, and which was ruled out, and also to certain affidavits made by the defendants saying that a fair and impartial trial could not be had here on account of military display being made which influenced the public mind so that a fair trial could not be had. It is almost certain that the judge will overrule the motion for this new trial.

The attorneys for the defense were in consultation all day Friday afternoon as to whether or not they will oppose the motion as to Jett, as they say if they can get a new trial in this case they will have enough evidence in the case at the next trial to convict him. However, prosecuting attorney Byrd said that if they concluded to oppose the new trial, that at the next term of the Harrison circuit court before Judge Osborne, which begins three weeks from Monday, they will put forward the case of the commonwealth against Curtis Jett, one of the defendants, for the murder of Jim Cockerill, to which murder there were some six eye witnesses, thereby succeeding in hanging Jett, which has been the ultimate aim of the prosecution in the case just tried.

The main features in the case at bar Friday have been the charges against Jett and White in this case, and who was until two years ago a deputy sheriff of the county and a man who has been highly esteemed. Jurors McNeese, Northcutt and Tate all said Friday morning that King did attempt to influence them to decide for Jett and White in this case by saying that there was nothing against the defendants. Judge Osborne, in his admonition to the jury told them not to talk about this case among each other until it was finally given to them to decide. This seems, and it is said by attorneys here, to be contempt of court.

No movements have been made as yet as to the soldiers and Col. Williams, the officer in command of the situation, said Friday afternoon that no movements as to the soldiers were decided on and would not be decided on until Saturday after the grounds and motion for a new trial had been passed on by the court and that the matter of the movements of the soldiers were in the hands of himself and Judge Osborne.

Cynthiana, Ky., Aug. 17.—Curtis Jett and Tom White were Saturday removed from this city, and are now locked in separate cells in towns that are widely distant. Jett was taken to Lexington at 5 o'clock Saturday afternoon. Tom White was taken to Covington at 2 o'clock.

PICNIC WAGON OVERTURNED.

A Party of Nuns and Indian Girls Were More or Less Injured.

Great Falls, Mont., Aug. 17.—By the overturning of a picnic wagon from St. Peter's mission, a party of nuns and Indian girls were dashed many feet down the side of a hill. Sister Ann Nunziata was fatally injured, and Mary Reed, a half-breed Indian girl, was seriously hurt. Another nun and several Indian girls were badly bruised and lacerated. The accident occurred during a heavy electric storm, a flash of lightning frightening the horses and causing them to dash over a steep embankment.

WAGON STRUCK BY STREET CAR.

Two Persons Seriously and Five Were Slightly Injured.

St. Louis, Aug. 17.—A street car on the Cherokee division of the St. Louis transit lines struck a wagon filled with 15 persons near the intersection of Gravois avenue and Meramec street Sunday night, seriously injuring John J. Mouser and his wife, Bertha, and slightly injuring Robert, their 8-year-old son. Mrs. Otto Elchinger, Miss Ida Zimmer, Miss Mary Gabel and Joseph Koch.

Declares the Will Is Invalid.

Naples, Aug. 15.—A parish priest named Milone willed his whole fortune of \$80,000 to the reigning pontiff when Leo XIII. was at the point of death. The priest has since died and his family now set up the claim that the will is invalid.

Saratoga, N. Y., Aug. 15.—At the auction sale of yearlings from the Fairview stud, the property of Charles A. J. Reed, Friday, a brown colt by Imp Knight of the Thistle-Active sold to P. J. Dwyer, for \$2,500.

THE CANAL TREATY.

The Colombian Senate Unanimously Rejected It.

Washington, Aug. 18.—A cablegram dated August 12 has been received at the state department from Minister Beaupre, at Bogota, saying that the Panama canal treaty has been rejected by the Colombian senate. President Roosevelt was immediately advised of the news. Mr. Beaupre's telegram being forwarded by Acting Secretary Loomis to Oyster Bay.

The reason given for the rejection of the treaty by the Colombian senate, it is said here, was the alleged encroachment on Colombian sovereignty which its opponents contended would result from the treaty. This information was contained in a dispatch received Monday night by Dr. Herren, the Colombian charge, from Foreign Minister Ricos, at Bogota. This dispatch showed that in its present form the treaty was absolutely unacceptable to the senate for the reason above stated and that it had been rejected unanimously. The view taken by the senate was at variance to that held by the government of Colombia, which felt satisfied when it submitted the treaty to congress that there would be no impairment of Colombian sovereignty if the treaty should be ratified.

Incidentally to the general question of sovereignty necessary was that of the strip of land through which the canal was to be constructed and the debate in the Colombian senate indicated that that body regarded this as amounting to a sale of the land, therefore objectionable. When the treaty was submitted to the senate by the committee to which it was referred, seven of the senators favored it with certain amendments which they proposed and the remaining two opposed it absolutely. The amendments proposed by the majority are not stated here, but they evidently referred to the question of sovereignty, as is indicated by the subsequent rejection of the treaty in its present form.

Colon, Colombia, Aug. 18.—The rejection of the canal treaty by the Colombian senate has produced tremendous excitement on the isthmus. It was generally believed that the treaty would pass with some modifications. There is good reason to suppose that the majority of the members of the senate regard the Spooner amendment to build a canal by the Nicaraguan route, if the Panama route was rejected by Colombia, as a mere threat on the part of the United States. They are convinced that the Nicaraguan project is impracticable and that the United States will again deal with Colombia.

The rejection is a heavy blow to property owners here who have been investing heavily on the prospects of the treaty's being ratified.

FLOOD AT KANSAS CITY.

Two Bridges Carried Away and Others Are in Danger.

Kansas City, Mo., Aug. 18.—Boats are again in use to transport persons between the two Kansas Cities, the James street foot and wagon bridge and the Metropolitan Street Railway Co.'s bridge over the Kansas river having been carried off by the strong current. The river is higher than at any time since the June flood and other structures are in danger. The wrecked bridges are temporary pile affairs, constructed two months ago. A further rise is expected as half a dozen tributaries to the Kansas west of here are bankfull.

The river has been turbulent for over a week past and the strong current has brought in great quantities of driftwood. The James street bridge was partly wrecked Sunday. Soon after it went out Monday morning it floated down and took out the street railway bridge, severing the main line of communication across the river and carrying with it the Kansas City gas main and telephone cable. Monday night the Kansas City was practically in darkness. The wreckage of the two bridges finally lodged against the Chicago Great Western railway bridge and, while it weakened that structure and put it out of service, it will, it is believed, remain intact.

MORE OUTRAGES.

A Number of Christian Villages Pillaged and Destroyed.

Sofia, Bulgaria, Aug. 18.—A dispatch received here from Uskub says that 600 Bashi Bazuks under the command of Albanian chiefs, who are notoriously cruel, have pillaged and destroyed a number of Christian villages in the districts of Debre and Okrida. The Turkish authorities, it is added, connived at the outrage and furnished the Bashi Bazuks with uniforms, that they might appear to be regular soldiers.

Wear Your Hat.

Carlyle, Ill., Aug. 18.—Rev. M. Cairns, rector of the Episcopal church, is instructing women and girls to wear their hats when they attend services. He says to go bareheaded is against Bible teachings.

Carthage, Mo., Aug. 18.—In a head-on collision on the Carthage-Joplin electric railway Motorman James Baker was killed, Motorman Ed Hedge was probably fatally hurt and 25 other persons were injured.

THE VETERANS IN LINE

Allied Organizations Paraded In Honor of the G. A. R.

Gen. Miles and Shafter Were Greeted With Cheers Along the Line Which Included San Francisco's Chief Thoroughfares.

San Francisco, Aug. 19.—Seldom has a finer parade been witnessed in San Francisco than that which Tuesday did honor to the Grand Army of the Republic. The veterans were not in line, their procession being scheduled for Wednesday, but many allied organizations participated, chief among these being the naval reserves, the veterans of the Spanish-American war and the national guard of California. The regular army was well represented. The Order of Red Men, which was largely represented, added a picturesque feature to the display. The German societies of the city, including amateur athletes, and children from the various turner schools, made a splendid showing, as also did the league of Cross cadets. Gen. Miles and Shafter were greeted with cheers along the line of march, which included the city's chief thoroughfares.

Tuesday night Mechanics' Pavilion was crowded to the doors by grand army men, their wives and friends, the occasion being an informal reception to Gen. Stewart, commander-in-chief. The city was again illuminated Tuesday night.

The reception to Commander Thos. P. Stewart at the Mechanics' Pavilion Tuesday night was attended by several thousand people. It was participated in by the Women's Relief Corps, the Ladies of the Grand Army and kindred organizations. Gen. Geo. Stone, chairman of the executive committee, made a few remarks and introduced Maj. Gen. W. R. Shafter, commander of the department of California and Nevada, who welcomed the veterans to the Pacific coast. Mayor Schantz greeted the old soldiers on behalf of the city. In response Commander-in-Chief Stewart delivered an address expressing his gratification and that of his comrades at the heartiness of their reception in San Francisco.

FOR SMASHING A JOINT.

Eight Women Pleaded Guilty at Wichita, Kan.

Wichita, Kan., Aug. 19.—Eight women concerned in the smashing of a "joint" last week were arraigned in the city court Tuesday. All pleaded guilty to assault. They were fined \$10 each and costs. Warrants were sworn out against two other women also, but the cases against them were dismissed. The complaint was filed by Attorney S. B. Amidon and the women were charged with assaulting T. H. Mayan. The attorney and his clients were forced to beat a retreat amidst a shower of eggs, thrown by the irate women who had just finished their work against the saloon. The men had gone to look after Mahan's interests in the saloon.

BUBONIC PLAGUE.

Three Cases Made Their Appearance at Bagio, Mex.

Washington, Aug. 19.—Surgeon General Wyman, of the marine hospital service, Tuesday received a telegram from Dr. Lecage, president of the supreme board of health of the republic of Mexico, notifying him that three cases of bubonic plague had made their appearance at the town of Bagio, a small place on the western coast near Mazatlan, where the plague prevailed last spring. Dr. Lecage added that the cautionary measures to prevent the spread of the epidemic had been taken.

RIGHT FIELDER KERWIN.

Trade Made Between Louisville and Cincinnati Teams.

St. Paul, Minn., Aug. 19.—Geo. Tebeau, manager and owner of the Louisville team, made the announcement Tuesday night that he traded Kerwin to Cincinnati and that the right fielder would join the Cincinnati team at the close of the American association season. Mr. Tebeau refused to state which of the Cincinnati players he would get in return for Kerwin, but said the player would join Louisville next season.

Took a Dose of Strychnine.

ONE OF A POSSE KILLED.

Attempted to Rescue Young White Girl From Negroes.

Fort Smith, Ark., Aug. 19.—Kidnaping of a young white girl and the killing of one of a posse that tried to rescue her are the crimes charged against a party of eight Negroes fortified on Bruce's island, 16 miles west of this city. It is feared their capture will lead to a bloody encounter. The Negroes are said to be well armed. A few days ago two farmers, living near Wilson's Rock, landed on Bruce's island in search of plums and accidentally ran into a camp in which there were two Negro men and a white girl, about 12 years old. They made some inquiries about the girl and the Negroes said she was the daughter of a white man, who was traveling with them and had gone to Fort Smith for provisions. The Negroes would not let the girl take part in the conversation and this aroused suspicion. A watch was kept on the Negroes for two days, but no white man appeared. Monday afternoon a party of farmers decided to investigate the case and as they neared the island were fired on by the Negroes and one of the party, Roland by name, was killed. A sharp fight was kept up for some time during which the girl escaped from the Negroes and ran to the white men. She was so excited that she could not give any intelligent account of herself. She said, however, that her father was not traveling with the Negroes, but that she had been stolen from her home near Fort Gibson, I. T. She has been taken to Muldrev.

Roland, the dead man, was a comparatively stranger at Wilson's Rock. Bruce's island is in the center of the Arkansas river, contains about 25 acres and is densely covered with timber and thick underbrush. Poses of citizens left Tuesday for the scene of the trouble from Fort Smith, Spiro, Muldrev and Fort Gibson. There is much excitement around the island. One or two of the Negroes are known as desperate characters.

IMPORTANT AFFAIR.

Base of the statue of a Roman emperor found.

Rome, Aug. 19.—An important discovery was made during excavations at the forum, consisting of the base of a Roman emperor, Domitian, which was the greatest interest in determining the topography of the forum during the first century of the empire. The base stands five feet below the present level of the forum. It is 40 feet long, 20 feet wide and over ten feet high. On the top are three blocks of travertine stone, showing where the feet of the horse stood. The fourth block is lacking, indicating that the right forefoot of the horse was raised. The distance between the blocks is so great that it is calculated that the statue was six times life size.

MULTIMILLIONAIRE DEAD.

Six Years Ago He Worked in a Mine at 30 Cents a Day.

Chihuahua, Mex., Aug. 19.—Pedro Alvarado, a multimillionaire mining man, is dead at Parral. It is said that six years ago he was a barefooted peon working in a mine at 30 cents a day. He discovered the Palmito mine and his wealth is now estimated at \$55,000,000. He had no faith in banks and all that silver bars worth a great sum are locked in a steel cage in his palatial home near Parral, constantly guarded by a strong force of men.

KILLED IN HIS CELL.

A Convict Shot to Death by the Night Turnkey.

Bowling, Wyo., Aug. 19.—James Williams, a convict, was shot to death in his cell in the state penitentiary Tuesday by Ernest Goodsell, night turnkey. Reaching through the bars, Williams seized Goodsell and wrenched his keys from his hand. After a struggle Goodsell succeeded in drawing his revolver and shot the convict in the head. Williams, who was carrying a sentence for grand larceny, escaped from the prison June 5 last but was recaptured.

FIRE AT THE MILITIA.

Considerable Excitement Was Caused at Danville, Ill.

Danville, Ill., Aug. 19.—Considerable excitement was caused here Tuesday when one of three unknown men fired three shots at Guards Fifer and Perkins, members of one of the two militia companies that have been on duty in Danville since the recent riots in this city. Neither of the guards was injured and they did not return the fire.

MOSLEMS MURDERED.

Eight Hundred Killed By Insurgents in Monastir District.

Bulgarians Have Practically Mobilized An Army of 70,000—Communication Between Monastir and Salonica Cut Off.

Constantinople, Aug. 19.—A dispatch received at one of the embassies states that 800 Moslems have been murdered in the Monastir district by insurgents. Word was also received Tuesday that two Bulgarian villages had been totally destroyed by Turkish troops.

Twenty-four battalions of Redifs have been called out in Anatolia. The troops have been called out, as the orders given them from different sources are conflicting, and they are at a loss to know which to obey. A fierce battle is reported to have occurred in the neighborhood of Monastir. Three Turkish battalions attacked a thousand insurgents and after the fight had raged for six hours the Turks were repulsed with the loss of 210 men killed or wounded. The insurgent loss is not given.

Rome, Aug. 19.—Private advice from the Balkan peninsula received here states that Bulgaria has practically mobilized an army, as the troops under arms in the principality now amount to more than 70,000, which is double what is considered as the peace effective. The Bulgarian government, however, is unwilling to venture for the time being on any hostilities. It hopes, however, that public opinion in Russia will force the government to help Bulgaria against Turkey and the dispatch of a Russian squadron to Turkish waters encourages the Bulgarians in this view.

Sofia, Bulgaria, Aug. 19.—The Evening Post states that a band of Bashi Bazuks have crossed the Bulgarian frontier in the district of Telegdere killed 10 frontier guards with Yatagans and wounded two others. They also set fire to several houses. This raid has created great excitement in the district.

RIOTING IN CROATIA.

Several Rioters Killed and Wounded By Gendarme.

Vienna, Aug. 19.—A fresh outbreak of rioting has occurred in Croatia. At Zaprasic upon the occasion of the celebration of the birthday of emperor Francis Joseph Tuesday, a thousand peasants gathered in the town and destroyed a Hungarian banner. The rioters were resisted by the gendarmes, who shot three men and wounded many others. At Komosina the peasants pillaged stores and stoned the military, who killed two persons and wounded a number of rioters.

Will Build An Extension.

Chattanooga, Tenn., Aug. 19.—The Southern railway has decided to build an extension from Oliver Springs to Pilot Mountain, the survey for which is now being pushed rapidly forward. This extension will shorten the route from Knoxville to Cincinnati 25 miles and will pass through a section rich in coal and iron yet undeveloped.

Damaged By a Cloudburst.

Tucson, Ariz., Aug. 19.—A cloudburst at Cerro Prieto, Sonora, Sunday wrecked the stamp mill and the principal gold mine at that place, and floods carried away 10,000 tons of tailings valued at \$40,000 that were being worked for gold by the cyanide process.

Lexington, Ky., Aug. 19.—Pink B. Head, a few days ago by Will Rodden, was found wandering around in a condition almost starved.

STATE NEWS PICK-UPS

DAMAGING TESTIMONY.

Convict Henry Yontey on the Stand For Three Hours Thursday.

Georgetown, Ky., Aug. 18.—On the witness stand for three hours Thursday afternoon Convict Henry Yontey gave very damaging testimony against Caleb Powers in the Cockerill murder conspiracy case. He testified that in January, 1901, he signed an affidavit for Powers as to his innocence, to present to the republican judges of the court of appeals to secure from them a reversal of the life sentence given him. Powers, he said, at the time he signed that affidavit told him that he would consent to his name being used to sign an agreement waiving the truth or falsity of it, and also agreeing to never let it become public or to use it openly in court, and to return it to him, Yontey, within 15 days. He says the affidavit was not returned by Powers, and he, Yontey, kept the written agreement. He produced the agreement in court with Powers' signature attached.

Georgetown, Ky., Aug. 19.—For two hours Friday the convict Henry Yontey underwent a very trying and vigorous cross-examination as to his participation in the conspiracy which, he says, resulted in the assassination of William Cockerill. For all of that he maintained the calm demeanor that the people of Scott county can not understand in him after the sensations he furnished them two years ago when he was himself on trial here and "threw a fit" in the court room to keep from going on the witness stand, and to excite sympathy in the minds of the jurors trying him. When he told them Friday, in response to questions of the defense attorneys, that he had faked them, he did so with a smile on his face and some embarrassment, causing a general laugh among the hundreds, mainly women, who had assembled to hear him.

Georgetown, Ky., Aug. 18.—Caleb Powers took the witness stand in his own defense at the afternoon session of court Monday. Examined by Judge Jere B. Morton of his counsel, he told the story he has repeated on the stand on each of his preceding trials, inserted new matter now and then by entering denial to the story told by Frank Cecil, of Bell county, that he was seeking some one to enact the role of assassin. He was very earnest in his denial of the Cecil matter. In making answer to questions the defendant continually made explanation of what he meant. A number of times he fell into error in making these explanations, and was corrected by the court. Attorneys Franklin and Campbell followed his recital closely and often interrupted.

THOUGHT HIM A BURGLAR.

A Bridegroom Fatally Shot By His Sister at Paducah.

Paducah, Ky., Aug. 17.—Fred Iverett was shot and probably fatally wounded at an early hour Sunday morning by Mrs. May Crockett, his sister, who believed he was a burglar. Iverett went home late and was walking in his sister's room when she fired three shots, all taking effect. A shot passed through his right leg, one through the hand and one through his right lung. Iverett was married a few days ago.

CAPT. B. J. EWEN.

Hopes to Buy a Home in Lexington and Settle Down.

Lexington, Ky., Aug. 17.—After considerable doubt and speculation, Mrs. Ewen, wife of Capt. B. J. Ewen, the principal witness who testified against Curtis Jett and Tom White in their recent trial at Cynthiana, arrived in this city from Jackson Sunday night. She was met at the depot by her husband and an affectionate greeting took place. They went to the house of a friend, where they will spend the night. Monday, Mrs. Ewen said, they would look for a home, which they hope to purchase, and will take up their residence in this city. She appeared fatigued and said she was glad to be with her husband again.

Lexington, Ky., Aug. 18.—Capt. B. J. Ewen, the leading witness against Jett and White, procured a home here Monday, having decided to make Lexington his future place of residence.

WOMEN INDICTED.

It is Alleged They Urged Men on to Do Murder.

Beattyville, Ky., Aug. 18.—America and Rubrica Beard, mother and daughter, have been indicted at the special term of the Owsley circuit court at Booneville, charged with complicity in the murder of Delaney Peters, for which Joe Don Sam and Robert Allen have already been indicted. Peters killed a brother of the Allens, and was sentenced to three years in the penitentiary and then given a new trial. The Allens gave impatient, and it is said, shot him to death at the home of Deputy Sheriff Wilson. It is alleged that the women located Peters, prepared the guns, and urged the Allens to the deed, in revenge for the death of their kinsman.

GEORGETOWN COLLEGE.

The Resignation of President B. D. Gray Was Accepted.

Georgetown, Ky., Aug. 19.—At a meeting of the board of trustees of Georgetown college Tuesday afternoon the resignation of President B. D. Gray was accepted. the Owensley Circuit Court, he being
summoned as a witness before the
grand jury.

The L. & A. passenger train was late
Tuesday evening and most of the dele-
gates from Breathitt and Magoffin
counties had to spend the night in
Beattyville.

Col. Morris B. Belknap spoke at the
court house Tuesday to a large crowd
among which were many ladies. The
best of order prevailed, and several
Democrats came out to see and hear
the next Governor of Kentucky.

The Republican Convention which
met here Tuesday to nominate candi-
dates for Judge and Commonwealth's
Attorney, nominated T. B. Blakey, of
this place for Judge, and James P.
Adams, of Magoffin, for Common-
wealth's Attorney.

The Sheriff of Woodford county, is
in the city, and seems to be mixing
with our Sheriffs here, we are suspi-
cious of him, and think he is after some
of our colored people.

The Judicial Convention was well
attended and the delegates seemed to
enjoy themselves in our town, as all
people do, when they come to see us.

There was a great many people went
out Monday to meet Col. Belknap.
Some of our boys went as far as
Beattyville Junction to meet him.

John G. White and son, of Winches-
ter, came with Col. Belknap, to Beatty-

Republican Mass Meeting.

At a mass meeting of the Republi-
cans, of Breathitt County, held at the
court house thereof, in the town of
Jackson, on Saturday August 15th,
1903, for the purpose of selecting dele-
gates to attend the Republican Judicial
Convention to be held in Beattyville,
on Tuesday August 18th, 1903,
for the purpose of nominating candi-
dates for Circuit Judge and Common-
wealth's Attorney in the 23rd Judicial
District of Kentucky, composed of the
counties of Breathitt, Estill, Lee, Ma-
goffin and Wolfe, to be voted for at the
ensuing November election. The
County Chairman being absent, the
meeting was called to order by M. S.
Crain, Chairman of District No. 1, who
explained the object of the meeting in
a brief and elegant speech. On motion
of A. H. Patton, M. S. Crain was
chosen Chairman and Kelly Kash
Secretary. The following organiza-
tion was made: The chair
appointed the following persons as a
committee on resolutions viz: R. A.
Hurst, A. H. Patton, B. M. Lin,
John E. Hurst, J. E. Patrick, John-
son, who reported the following res-
olution: Resolved, That the dele-
gates from this county to said con-
vention, be and they are hereby in-
structed to use all honorable means to
adjourn said convention to some future
time as may be determined by the
delegates in said convention.

2nd Resolved, That all our dele-
gates, be and they are hereby in-
structed to vote as a unit on all ques-
tions arising in said convention, and that the
Chairman of this meeting appoint the
delegates to said convention, J. E. Patrick,
Chairman Committee. The chair ap-
pointed the following persons as dele-
gates to said convention viz: J. B.
McLain, A. S. Johnson, A. H. Patton,

On motion, it is resolved that the
Breathitt County News be requested to
publish the proceedings of this meet-
ing. On motion the meeting adjourned.
M. S. Crain, Chairman.
Kelly Kash, Secretary.

At the Court.

About 1500 cattle on the market.
The quality was fair, the trade was
very dull and no wonder, the weather
continues dry and grass and corn will
be ruined if we do not have rain in a
few days. The best 1000 lb. steers
sold at \$3.50; lighter weight at \$3.25
to \$3.50; yearlings at \$3 to \$3.50; heifers
at \$2.50 to \$3.50; cows at \$2.50 to \$3.
About 2000 sheep for sale. Trade good.
One bunch of 100 extra ewes sold at
\$3.50 but as a rule the best sold at \$3.
A good crowd at the pens, with buyers
from other states. There was

Died at Lexington.

The remains of Mrs. A. R. Graham,
who died at the Good Samaritan Hos-
pital at Lexington last Tuesday, was
taken to Lee City Wednesday morning
for burial. She was a daughter of
Alex Rose, of near Lee City, and had
been sick for several months. She
was taken to Lexington last Saturday
for treatment, but immediately grew
worse and died Tuesday.

Shooting at Oakdale.

On last Saturday, Charles Salyers
and Ed Eastin engaged in a game of
cards, and, as usual, a quarrel arose,
both men parting as deadly enemies.
They met at Oakdale Sunday morning,
both drawing their guns and began
shooting. When the smoke had cleared
away Eastin was found lying on the
ground dead, with four bullet holes in
his body, while Salyers escaped un-
injured. Salyers was immediately ar-
rested by Estill Deaton and brought
to Jackson to await his examining trial.

loss.

Not Over-Wise

There is an old allegorical picture of
a girl scared at a grass hopper, but in
the act of heedlessly treading on a
snake. This is paralleled by the man
who spends a large sum of money buy-
ing a cyclone cellar, but neglects to
provide his family with a bottle of
Chamberlain's Colic, Cholera and
Diarrhoea Remedy as a safeguard
against bowel complaints, whose vic-
tims outnumber those of the cyclone a
hundred to one. This remedy is every-
where recognized as the most prompt

diseases. For sale by DAY BROS. CO.

Owsley County Grand Jury.

The Owsley County Grand Jury re-
turned an indictment against America
Beard and Rebecca Beard, charging
them with being accessories of Joe
Allen, Don Allen, Sam Allen and Robt.
Allen, for the murder of Delaney
Peters, for which the Allens have just
been indicted. The Beard women are
mother and daughter. The part they
took in the killing, it is alleged, was to
locate Peters for the men, prepare the
guns and urge the killing of Peters, to
avenge the death of a kinsman that
had been killed in a fight a year or so
ago, and for which crime Peters had
been tried.

Alfonso Cawood has also been in-
dicted for the murder of James L.

for Circuit Judge, and J. P. Adams, of
Salisburyville, for Commonwealth's At-
torney of this, the 23rd Judicial Dis-
trict. Judge Blakey is about 42 years
of age, has been a practicing lawyer
about 20 years, has served two terms
as County Attorney of Lee county to
the entire satisfaction of his consti-
tuents and is well equipped for the office
he seeks. Mr. Adams is the present
member of the Legislature from this
district, and has been a practicing
lawyer for a number of years, and as
he says he is a candidate for matrimony,
we probably had better not
give him age.

Dysentery Cured Without the
Aid of a Doctor.

"I am just up from a hard spell of
the flux" (dysentery) says Mr. T. A.
Pinner, a well known merchant of
Drummond, Tenn. "I used one small
bottle of Chamberlain's Colic, Cholera
and Diarrhoea Remedy and was cured
without having a doctor. I consider
it the best cholera medicine in the
world." There is no need of employ-
ing a doctor when this remedy is used,
for no doctor can prescribe a better
medicine for bowel complaint in any
form either for children or adults. It
never fails and is pleasant to take.

Merit Makes It the World's Leader.

Merit, greatest medicine ever put into convenient form for quick, easy, pleasant use—backed by the right kind of advertising, has given Cascaros the greatest sale in the world among laxative medicines. Over ten million boxes a year are now being bought by the American people. Great success always brings out imitators, and readers are warned that when it comes to buying medicine the best is none too good, and whenever a dealer offers to sell you something just as good, put it down as a worthless fake, put your money in your pocket, and go to a store where you will be treated fairly, and where, when you ask for Cascaros, you will get what you ask for.

Woman's Nerves

Give Warning of Approach of More Serious Trouble.

Do you experience fits of depression with restlessness, alternating with extreme irritability, bordering upon hysteria? Are your spirits easily affected so that one minute you laugh, and the next fall into convulsive weeping?

Do you feel something like a ball rising in your throat and threatening to choke you; all the senses perverted, morbidly sensitive to light and sound; pain in the ovaries, and especially between the shoulders; sometimes loss of voice; nervous dyspepsia, and almost continually cross and snappy, with a tendency to cry at the least provocation?

If so, your nerves are in a shattered condition, and you are threatened with nervous prostration.

Undoubtedly you do not know it, but in nine cases out of ten this is caused by some uterine disorder, and the nerves centering in and about the organs which make you a woman influence your entire nervous system. Something must be done at once to restore their natural condition or you will be prostrated for weeks and months perhaps, and suffer untold misery.

Proof is monumental that nothing in the world is better for this purpose than Lydia E. Pinkham's Vegetable Compound; thousands and thousands of women have written us so.

How Mrs. Holland, of Philadelphia, suffered among the finest physicians in the country, none of whom could help her—finally cured by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—For over two years I was a constant sufferer from extreme nervousness, indigestion, and dizziness. Menstruation was irregular, had backache and a feeling of great lassitude and weakness. I was so bad that I was not able to do my own work or go far in the street. I could not sleep nights."

"I tried several splendid doctors, but they gave me no relief. After taking Lydia E. Pinkham's Vegetable Compound I soon began to feel better, and was able to go to work and not feel as if I would fall at every step. I continued to take your medicine until cured."

"I cannot say enough in behalf of Lydia E. Pinkham's medicine, and heartily recommend it to all who are troubled with nervousness and all the ills that come from it."—Mrs. F. E. ENGLISH, 622 S. Clifton St., Philadelphia, Pa. (Jan. 4, 1902.)

Another case of severe female trouble cured by Lydia E. Pinkham's Vegetable Compound, after the doctors had failed.

"DEAR MRS. PINKHAM:—I was in poor health for several years. I had female trouble and was not able to do my housework alone. I felt tired, very nervous, and could not sleep. I doctored with several doctors. They doctored me for my stomach, but did not relieve me. I read in your book about your medicine, and thought I would try it. I did so, and am now cured and I am able to do my work alone, and feel good. I was always very poor, but now weigh one hundred and fifty pounds."

"I thank you for the relief I have obtained, and I hope that every woman troubled with female weakness will get Lydia E. Pinkham's Vegetable Compound as a trial. I have recommended it to many of my friends."—Mrs. MARIA BOWERS, Millersville, Ohio. (Aug. 15, 1901.)

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all of the virtues of this medicine?

How shall the fact that it will help them be made plain? Surely you cannot wish to remain weak, and sick, and discouraged, exhausted with each day's work. You have some strange ailment of the feminine organism, and Lydia E. Pinkham's Vegetable Compound will help you just as surely as it has others.

WASTEFULNESS OF AMERICANS

Prodigality in Use of Food and Clothing—Losing Something Appalling—Lost Farm Products.

Premising that the American people are the slowest in the world to be aroused on the subject of economy, the Independent calls attention once more to the great items of waste in our national life, says the New York World.

While our industries are expanding with amazing rapidity we are using up our forests, our oil wells, our natural gas and our coal beds as recklessly as if we thought they would last forever. Prof. Goby declares that the waste of natural gas in Indiana alone is equal in value to \$10,000,000 per day. Within a single century we have annihilated 97 per cent of our magnificent forest trees, a waste without parallel in history, and one for which posterity will surely reproach us.

Our waste of food is appalling. Cooking is a lost art in the average household. At least \$1,000,000 is every year thrown away in defective cooking; so Prof. Matthews estimates. There is no comfort in the fact that the English people are just as prodigal, though they have a much leaner pantry to draw upon. Prof. Marshall, an eminent English economist, says the British working classes spend \$500,000,000 every year for things that give them neither comfort nor happiness, and the president of the British association recently expressed his belief that this vast sum was wasted in food alone.

On our farms twice as much food products at least are grown as are consumed. An agricultural expert recently estimated that one-half of all the fruit grown in American orchards rots uncollected. The further loss from insects, ignorant cultivation, careless handling and poor storage is incalculable.

Probably the greatest waste of all is that which seems to be involuntary on the part of our working people. They buy their bread at retail and pay three times as much for it as if they bought it in flour by the barrel. It is the testimony of retail butchers that the poor buy meats also with far less frugality than the rich. Edward Atkinson has been for 20 years showing by practical experiments that the largest amount of nourishment can be obtained from the cheapest cuts of meat, if they are so cooked as to save instead of throw away the food there is in them. But as the Independent says, buying at wholesale is unknown to the majority of American families, and we support a vast number of middlemen whose profits might be easily saved.

Our contemporary's conclusion that studies in domestic economy might be carried into our schools with great advantage is sensible. Five times our present population at least could and should be well fed without any increase of our cultivated area. We cannot continue our present extravagances forever. "Waste not, want not," is the sound maxim for nations as well as individuals.

FLOWER WITH DEADLY ODOR.

Hitherto Unknown Species of Plant Recently Discovered in Southern California.

A tree hitherto unknown to botanists was recently discovered in a mountain canyon in the San Jacinto mountains, in California, near the Mexican border. It was discovered by a party of prospectors who penetrated the canyon in search of water. A branch of the tree and its blossoms were brought to this city for classification, but it is unknown to botanists in this city, says the Chicago Chronicle.

The leaves of the tree resemble in size and shape the fig leaf, but they are of a vivid purple color and the under side of the leaf is thickly covered with stiff hairs, which stand out from the leaf fully half an inch. These hairs are sharp and thornlike and easily penetrate the skin, and when they do so they are poisonous, causing swelling and much pain.

The blossoms are as peculiar as the leaves and leaves. They are of a rusty red color and are about two inches in diameter. In shape they are a very good representation of the tarantula. There is a huge hairy bulb in shape resembling the abdomen of the poisonous spider, and there are several whorls, or stamens, corresponding to the legs of that insect.

The most peculiar feature of the plant, however, remains to be told. Whenever one approaches the plant, or when the wind agitates the branches of the tree, the flowers give off an abundance of perfume—heavy, sickening and deadly. This perfume has the quality of chloroform and a few inhalations of the odor produce unconsciousness. The prospectors who made the discovery of the plant were rendered insensible upon approaching the tree to examine it.

As the plant seems to have no botanical name, two names have been suggested by the qualities of the plant itself. One is tarantula plant, the other chloroform tree.

Had an Assistant.
A naval officer tells of a conversation he once overheard between two marines who were arguing as to who had the least work to do on board a man-of-war.

"It's the chaplain," said one.

"How do you make that out?" asked the second.

"Because he ain't got any work to do and all day to do it."

The second marine snorted his disgust.

"You're wrong, Jack," said he. "It's the captain of marines."

"How's that?"

"Well, me boy, as you say, the chaplain's nothing to do and all day to do it; but the cap'n of marines has nothing to do and all day to do it, and a lieutenant of marines to help him do it."—N. Y. Times.

London's Water Bill.
London has a water bill which is not paid to the water company. The casual statement was made in the house of commons the other night that London paid annually not less than \$150,000 for water which had been put in the milk it drank. The quantity of milk received into London every day is approximately 144,000 gallons, which retails at 4d a quart. The rate of adulteration is 15.2.

THE SUNDAY SCHOOL.

Lesson in the International Series for August 23, 1903—David and Jonathan.

THE LESSON TEXT.
(1 Sam. 20:12-23.)

12 And Jonathan said unto David, O Lord God of Israel, when I have sounded my father about to-morrow any time, or the third day, and behold, if there be good to thee, and I then send not unto thee, and shew it thee.

13 The Lord do so and much more to thee, Jonathan; but I will shew it thee, and send thee away, that thou mayest go in peace; and the Lord be with thee, as he hath been with my father.

14 And thou shalt not only while yet I live shew me the kindness of the Lord, that I die not.

15 But also thou shalt not cut off thy kindness from my house for ever; no; when the Lord hath cut off the enemies of David every one from the face of the earth.

16 So Jonathan made a covenant with the house of David, saying, Let the Lord require it at the hand of David's enemies.

17 And Jonathan caused David to swear again, because he loved him; for he loved him as he loved his own soul.

18 Then Jonathan said to David, To-morrow is the new moon; and thou shalt be missed, because thy seat will be empty.

19 And when thou hast stayed three days, then thou shalt go down quickly, and come to the place where thou didst hide thyself when the sword Ezel.

20 And I will shoot three arrows on the side thereof, as though I shot at a mark.

21 And behold, I will send a lad, saying, Go, find out the arrows. If I express, say unto the lad, Behold the arrows are on this side of thee; take them; then come thou; for there is peace to thee, and no hurt; as the Lord liveth.

22 But if I say thus unto the young man, Behold, the arrows are beyond thee; so the way for the Lord hath been revealed.

23 And as touching the matter which thou hast said, I will do as thou sayest.

24 And I have spoken of, behold, the Lord be between thee and me for ever.

GOLDEN TEXT.—There is a friend that sticketh closer to a brother.—Prov. 18:24.

OUTLINE OF SCRIPTURE SECTION.
David's escape. 1 Sam. 19:1-24. David's appeal to Jonathan. 1 Sam. 20:1-16. Jonathan's covenant. 1 Sam. 20:17-18. The sign given. 1 Sam. 20:19-23. The affectionate parting. 1 Sam. 20:24-42. TIME.—Probably about 302 B. C.

NOTES AND COMMENTS.

In what true friendship consists is seen in the strength and beauty of the tie that existed between David and Jonathan. Friendship does not demand but gives; and either would willingly have made sacrifices for the other. Such a friendship is possible only between persons of exalted character.

Chapter nineteen narrates the temporary reconciliation between Saul and David, at Jonathan's earnest intercession. But it was very short-lived. As soon as David again wins renown in battle, Saul's hatred returns, more violent than ever, and the victim of insane jealousy escapes from his father-in-law's clutches.

By night, assisted by his wife Michal, David escapes from his father-in-law's clutches. He seeks refuge at Saul's approach.

Jonathan, at Saul's approach, is forced into a position of great peril and safety at the same time. He is forced to discover the cause of the king's hostility toward him. Jonathan's sanguine disposition scented the idea that Saul desired David's death, or that his dislike was really permanent, but David feared the worst. The two friends arrange to meet at the feast of the new moon, which was to occur the next day. Jonathan should make a final attempt to reconcile the king to David.

Then as the two friends walked through the fields—both conscious that it might prove their last meeting—they solemnly vowed that their mutual friendship should be lasting—should continue even to their descendants.

"When Jehovah hath cut off the enemies of David," Jonathan's faith in David's future is remarkable in spite of David's desperate condition that day, his friend believed in him, and believed he would some day be king of Israel. Jonathan's utter lack of jealousy under such circumstances is truly Christlike.

Jonathan promised to sound his father on the following feast day as to his feelings toward David, and agreed to report to David at their rendezvous on the third day. As a private interview might be prevented by the presence of spies or others, they arranged the signs as described in verses 20-22 so that, in any case, David might readily know whether or not it were necessary for him to flee from the country.

The rest of this chapter should be faithfully read. At the appointed feast, David's absence is noted. The king, who had probably planned his death on that occasion, Jonathan quickly discovers Saul's implacable hatred of his rival, and risks his own life vainly in defending David from the royal abuse. The account of the parting of the friends at the trysting-place on the third day is brief but significant of their strong attachment. They never met again.

"Jonathan loved David as his own soul." And why? Because his soul was like the soul of David; because he was modest, he loved David's modesty; because he was brave, he loved David's courage; because he was virtuous, he loved David's goodness."—Charles Kingsley.

PRACTICAL SUGGESTIONS.

A true friend will always stand up for his absent mate.

A true friend will forfeit even life itself to protect the one he loves.

A true friend seeks to give rather than get; his joy is in benefiting his comrade.

Self-denial is the secret of delight.

Great treasures do not need large houses.

Men who will carve their own fortunes must expect to cut their own fingers.—Ram's Horn.

THE ANIMAL KINGDOM.

Constantinople is sometimes called the city of dogs, but it might be called quite as well the city of pigeons, for the pretty gray-white birds are there in innumerable flocks.

Monkeys are very numerous along the northwest coast of South America, but are not found west of the Andes from northern Peru to the south end of the continent. Their home in South America is chiefly in the great Amazon basin and along the fluvial systems of the upper half of the Paraguay and the Parana rivers.

MEN WHO ARE TALKED ABOUT.

Senator Hoar, of Massachusetts, uttered the following admonition at the Worcester summer school: "Constitutions and states, congresses and laws, police and elections, all break down and come to grief unless behind them and underneath them there be human character. You may have all these things, but there will come a time when you must depend upon some individual to do right."

At a recent meeting of Benjamin Hamrick's family in Webster Springs, W. Va., it developed that the aggregate stature of Mr. Hamrick and his eight sons was sixty-two and one-half feet. The father stands six feet five and one-half inches, and the "sawed off" of the family, a son named William, is six feet one inch. The members of this remarkable family range in weight from 155 to 200 pounds.

Thomas J. Mosteller, of Hazel Run, St. Francis county, Mo., is the biggest man in the state, weighing something over 600 pounds and steadily gaining. As an ordinary meal he eats from three to five pounds of meat, usually consuming about a gallon of water at a meal. Mr. Mosteller was of ordinary bulk until his twenty-fifth year. He is now 49 years old and does some work on his farm, being able to move about quite freely with the aid of a huge cane.

J. B. Haggin, the noted horseman, has raised some of the greatest racers of which the American turf can boast, but he has never been heard to yell at the closer finish, nor does he even smile at victory. His record for tact, timidity is almost without parallel. It being nothing unusual for him to go through an entire day without saying more than half a dozen words. It is said that when a close friend spoke to him of this peculiarity Mr. Haggin made this reply, "Joyner, my trainer, does enough hollering for both of us."

WHAT SCIENTISTS TELL US.
In the North sea fisheries investigation a plaice has been found to migrate 160 miles in six weeks.

The new thermo-element of Dr. S. P. Dreesbach is claimed to be an important advance in the production of electricity by such batteries. The electrodes are made up of an alloy of elements of the cerium and zirconium groups, giving, with copper, etc., increased electromotive force and conductivity.

Since the great volcanic disturbances in the Windward Islands it has been impossible to maintain unbroken cable connections between the islands of Martinique and Guadeloupe and the French government has established a wireless telegraph service between the two. The distance exceeds 100 miles.

Easily fusible alloys for casts of leaves, fruits, insects, etc., must contain cadmium, according to a German authority, to preserve the article from injury. Such an alloy is Wood's metal, which consists of two parts of tin, four of lead, seven of zinc, and fifteen of cadmium, and which fuses between 66 and 72 degrees C. Lipowitz's metal, which softens at 55 degrees C. and becomes perfectly liquid at 66 degrees, consists of four parts of tin, eight parts of lead, fifteen of bismuth and three of cadmium.

MAXIMS OF A WEALTHY MAN.

As a part of his will Mayer Anselm Rothschild laid down 12 maxims to the observance of which during life he attributed much of the success he achieved. These maxims are now attracting attention in Europe and are recommended to those who desire to succeed in life.

Seriously ponder over and thoroughly examine any project to which you intend to give your attention.

Reflect a long time and then decide promptly.

Endure annoyances patiently and fight bravely against obstacles.

Consider honor as a sacred duty. Never let about a business affair.

Pay your debts promptly.

Learn how to sacrifice money when necessary.

Do not trust too much to luck. Spend your time profitably.

Do not pretend to be more important than you really are.

Never become discouraged, work zealously and you will surely succeed.

THE SALESWOMAN

Compelled to Be on Her Feet the Larger Part of the Day Finds a Tonic in Peruna.

Miss Curtin, of St. Paul, Gives Her Experience.

MISS NELLIE CURTIN.

MISS NELLIE CURTIN, 66 Pearl street, St. Paul, Minn., head saleswoman in a department store writes:

"I have charge of a department in a dry goods store, and after standing the larger part of the day, I would go home with a dull ache, generally through my entire body. I used Peruna and feel so much better that I walk to and from the store now. I know Peruna to be the best medicine on the market for the diseases peculiar to women."—Miss Nellie Curtin.

COMPELLED TO USE A CRUTCH FOR EIGHT MONTHS. DOAN'S KIDNEY PILLS CURED MRS. P. CONLIN, CARBONDALE, PA.

Mrs. P. Conlin, 621 Greenfield Avenue, Carbondale, Pa., says: "I suffered with backache, and, despite the use of medicines, I could not get rid of it. I was compelled to use a crutch for eight months, and a part of the time was unable to walk at all. I finally screamed if I attempted to lift my foot from the floor, and, finally, I lost control of my limbs through weakness, as I could no longer bear the strain of my full height, and if ever a woman was in a serious condition, I was. My husband went to Kelly's drug store and brought home a box of Doan's Pills. I felt better in a few days, and, continuing the treatment, I was soon able to walk. At the end of two weeks I was able to do my own work. I had completed the treatment. I had not ache or pain, and I have been in that condition ever since."

Aching backs are eased. Hip, back, and loin pains overcome. Stiffening of the joints relieved. Rheumatism, lumbago and dropsy signs vanish.

Correct urine with brick dust sediment, high colored, pain in passing, dribbling, frequency, and wetting. Doan's Kidney Pills remove all acid and gravel. Relieve heart palpitation, sleeplessness, headache, nervousness, dizziness.

THE BULL DOG GERM

You know how a bull dog bites. When he gets his jaw, hardly anything but death will cause him to let go his hold.

Same with a microbe; only more so. Get rid of him, or he'll get rid of you. By degrees, as he continues to live and multiply, he will poison your blood, as to make you very sick indeed.

The only way to drive out microbes, is to take some medicine which will go right into, and sterilize, the blood.

Nothing will do this like

Merit Makes It the World's Leader.

Merit, greatest medicine ever put into convenient form for quick, easy, pleasant use—lacked by the right kind of advertising, has given Cascares the greatest sale in the world among laxative medicines. Over ten million boxes a year are now being bought by the American people. Great success always brings out imitators, and readers are warned that when it comes to buying medicine the best is none too good, and whenever a dealer offers to sell you something just as good, put it down as a worthless fake, put your money in your pocket, and go to a store where you will be treated fairly, and where, when you ask for Cascares, you will get what you ask for.

Give Warning of Approach of More Serious Trouble.

Do you experience fits of depression with restlessness, alternating with extreme irritability, bordering upon hysteria? Are your spirits easily affected so that one minute you laugh, and the next fall into convulsive weeping?

Do you feel something like a ball rising in your throat and threatening to choke you, all the senses perverted, morbidly sensitive to light and sound; pain in the ovaries, and especially between the shoulders; sometimes loss of voice; nervous dyspepsia, and almost continually cross and snappy, with a tendency to cry at the least provocation?

If so, your nerves are in a shattered condition, and you are threatened with nervous prostration.

Undoubtedly you do not know it, but in nine cases out of ten this is caused by some uterine disorder, and the nerves entering in and about the organs which make you a woman influence your entire nervous system. Something must be done at once to restore their natural condition or you will be prostrated for weeks and months perhaps, and suffer untold misery.

Proof is monumental that nothing in the world is better for this purpose than Lydia E. Pinkham's Vegetable Compound; thousands and thousands of women have written us so.

How Mrs. Holland, of Philadelphia, suffered among the finest physicians in the country, none of whom could help her—finally cured by Lydia E. Pinkham's Vegetable Compound.

“DEAR MRS. PINKHAM:—For over two years I was a constant sufferer from extreme nervousness, indigestion, and dizziness. Menstruation was irregular, had backache and a feeling of great lassitude and weakness. I was so bad that I was not able to do my own work or go far in the street. I could not sleep nights.”

“I tried several splendid doctors, but they gave me no relief. After taking Lydia E. Pinkham's Vegetable Compound I soon began to feel better, and was able to go to work and not feel as if I would fall at every step. I continued to take the medicine until cured.”

“I cannot say enough in behalf of Lydia E. Pinkham's medicine, and heartily recommend it to all women who are troubled with nervousness, and I feel that I did.”—Mrs. F. J. ENCE, 622 S. Clifton St., Philadelphia, Pa. (Aug. 15, 1902).

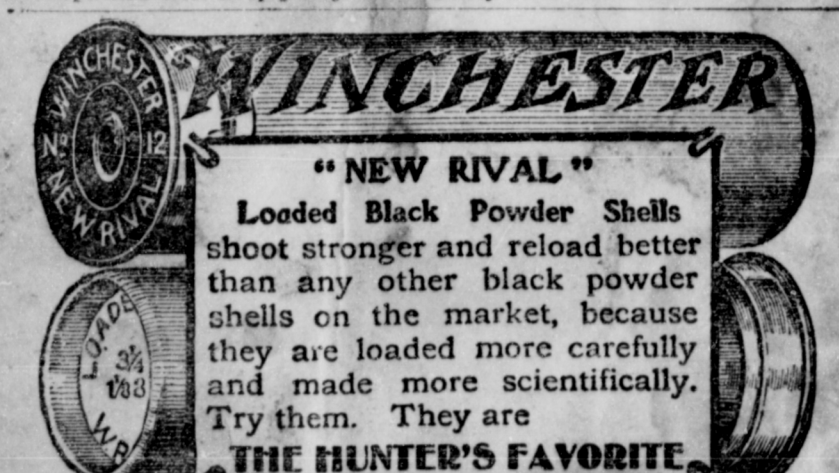

Another case of severe female trouble cured by Lydia E. Pinkham's Vegetable Compound, after the doctors had failed.

“DEAR MRS. PINKHAM:—I was in poor health for several years. I had female trouble and was not able to do my housework alone. I felt tired, very nervous, and could not sleep. I doctored with several doctors. They doctored me for my stomach, but did not relieve me. I read in your book about your medicine, and thought I would try it. I did so, and am now cured. I am able to do my work alone, and feel good. I was always very poor, but now weigh one hundred and fifty pounds.”

“I thank you for the relief I have obtained, and I hope that every woman troubled with female weakness will get Lydia E. Pinkham's Vegetable Compound a trial. I have really owed it to many of my friends.”—Mrs. MARIA BOWERS, Millersville, Mo. (Aug. 15, 1901).

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all of the virtues of this medicine?

How shall the fact that it will help them be made plain? Surely you cannot wish to remain weak, and sick, and discouraged, exhausted with each day's work. You have some derangement of the feminine organism, and Lydia E. Pinkham's Vegetable Compound will help you just as surely as it has others.

A German Farmer's Case.

Rich Fountain, Mo., Aug. 17th.—Rev. Jos. Pope, of this place, is widely and favorably known as a clergyman who has done and is doing much for his people. He is very much beloved by everyone for the faithfulness of his pastoral work.

Rev. Mr. Pope has given for publication a statement made to him by a German farmer, who is a member of his congregation. The man's name is George Hoelzer, and he has given Rev. Mr. Pope this letter:

“Last winter I suffered very much with Rheumatism. I could neither walk nor ride on horse back nor do any farm work. I took medicine from different doctors, but they did not do me any good. Then I tried Dodd's Kidney Pills procured for me by a good friend. After I had taken the first box I felt already a heap better. I was relieved of the pain and could walk and chop wood, and the contraction of my fingers began to resolve.”

“Now since I have taken six more boxes of Dodd's Kidney Pills I feel well again and am able to do all the work on the farm.”

The Hoelzers were very angry with the doctor who had failed. I asked the member of the church, “How did you feel?”

“He felt like a dog,” explained the man. “There are any number of things in getting your dog to walk, then talk were frozen stiff, and when they were to wag them they broke off.”—Stray Stories.

“Have you had much experience?” asked Mrs. Youngwife of the applicant for the position of cook. “Mum,” said the cook lady, portentously, “could write a book.”—Somerset House Journal.

You cannot live by another's experience.—Ran's Horn.

Our farms twice as much food products at least are grown as are consumed. An agricultural expert recently estimated that one-half of all the fruit grown in American orchards rots uncared for. The further loss from insect, ignorant cultivation, careless handling and poor storage is incalculable.

Probably the greatest waste of all is that which seems to be involuntary on the part of our working people. They buy their bread at retail and pay three times as much for it as if they bought it in flour by the barrel. It is the testimony of retail butchers that the poor buy meats also with far less frugality than the rich. Edward Atkinson has been for 20 years showing by practical experiments that the largest amount of nourishment can be obtained from the cheapest cuts of meat, if they are so cooked as to save instead of throw away the food there is in them. But as the independent says, buying at wholesale is unknown to the majority of American families, and we support a vast number of middlemen whose profits might be easily saved.

WASTEFULNESS OF AMERICANS

Prodigality in Use of Food and Clothing—Something Appalling—Lost Farm Products.

Premising that the American people are the slowest in the world to be aroused on the subject of economy, the Independent calls attention once more to the great items of waste in our national life, says the New York World.

While our industries are expanding with amazing rapidity we are using up our forests, our coal beds as recklessly as if we thought they would last forever. Prof. Gorby declares that the waste of natural gas in Indiana alone is equal in value to \$10,000 per day. Within a single century we have annihilated 97 per cent. of our magnificent forest trees, a waste without parallel in history, and one for which posterity will surely reproach us.

Our waste of food is appalling. Cooking is a lost art in the average household. At least \$1,000,000 is every year thrown away in defective cooking; so Prof. Matthews estimates. There is no comfort in the fact that the English people are just as prodigal, though they have a much leaner pantry to draw upon. Prof. Marshall, an eminent English economist, says the British working classes spend \$500,000,000 every year for food, and that they neither comfort nor happiness, and the president of the British association recently expressed his belief that this vast sum was wasted in food alone.

On our farms twice as much food products at least are grown as are consumed. An agricultural expert recently estimated that one-half of all the fruit grown in American orchards rots uncared for. The further loss from insect, ignorant cultivation, careless handling and poor storage is incalculable.
